BP-120 II Super-speed Type Automatic Production Line for Bottling Goods of Tablet & Capsule

The product line based on the current packing line adopts the design of separating the principle machine from the conveyer belt Counting, filling in the paper and screwing the lid using one conveyer belt get over the hard problem of adjusting the product and knocking over the bottles easily Counting machine and swing machine use the local advanced structure and avoid the phenomena of damaged easily and big noises To fix up an automatic weeding device on the screwing machine can abate the pollution and improve the producing efficiency largely and according to the standard of GMP mostly

TECHNOLOGICAL PROCESS(80-100BOTTLE/MIN)

BZ-120 I speedy bottle arranging machine—BSP120 II super speed tablet-swinging machine—BSZ-120 III speedy paper-filling machine—BXG-120 II speedy lid-screwing machine—BFT-120 aluminum foil seaming label sticking machine—BZH-120 automatic filling boxes machine

Suitable for Types of Tablets Capsules Come Here! the early and quick production line for bottling goods BP-120II

Specifications and Parameters

Max production capacity(Bottle/min): 60-100

Specification of Bottle(ml): 15-120

Voltage/Frequency(V/Hz): 220/50

Power (kW): 7.8

Expending gas(m³/h): 0.2

O/A measurement (m): 8.670

Operator: More than 4 people
