## NCB Series Semi—automatic Capsule Filling Machine

**Pharmaceutical Equipment Specialists**

**35 Bridgegate Drv, Victoria Dock, Hull. HU9 1SY. UK.**

**tel: +44 1482 225628 fax : +44 8082089525**

**e mail: gorclark@gmail.com web: www.nevos.co.uk**

---

This machine is suitable for filling all kinds of capsules made in china or imported. It adopts the touching screen, the step-less frequency air control, automatic electronic counter(Model NCB—200C adopts PLC according to the customers' demand),so it can complete following process automatically; positioning capsule, detaching capsule, filling capsule, closing capsule etc, so that reduce the intensity of labor and improve the producing efficiency.

The machine is an ideal equipment for pharmaceutical industry with sensitive, reliable operation and accurate filling dosing, novel structure and good appearance.

### **NCB 200C Series Semi—automatic Capsule Filling Machine**

#### **Specifications**

- 1; Maximum productivity: 12500pics/h
- 2: Size of capsule:o#,1#,2#,3# hard capsule
- 3:power: 2.2Kw
- 4:power supply: 380V 50Hz
- 5:Overall dimensions: 1200\*700\*1600mm
- 6:Weight: 330Kg
